The SchT 5 S group tag carriers are clipped directly onto the TS 32 terminal rail (G-rail) or the TS 35 terminal rail (top-hat rail). It is therefore possible to label the terminal strip irrespective of the terminal and the type of terminal. SchT 5 are fitted with ESO 5 or ESO 5 tags and STR 5 or STR 5 S protective strips.

Inlay tags and protective strips can be found under "Accessories".
