MultiFit is the Weidmüller marker system used for other makes of terminals in 4, 5, 6, 6.5, 7.5, 8, 10 and 12 mm pitches. Similar to the Weidmüller dekafix, the markers of the MultiFit family are available ready-for-use with standard printing.

We recommend to carry out a test with sample markers on the terminals used when using MultiFit for the first time.

- One marker, suitable for different makes of terminals.
- Ready-to-use markers with standard printing
- Blank markers for printing with the SMark laser, PrintJet ADVANCED, plotter or MC-Mobilo,
- Delivery of individually printed markers according to customer CAE data or specifications
- One marking system for all applications

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.
